

## DUST CONTROL FOR RURAL RESIDENCES

In accordance with the RM's dust control policy, the option of dust control application is again being extended to the rural residences of the Municipality. The following terms and conditions must be met in order to qualify to have the dust suppressant applied:

- The residence must be physically located within 300 feet of the road in order to be eligible.
- Dust control shall not be applied on RM road allowances by individuals, special requests shall be directed to your Division Councillor and approval may be required.
- **An indemnity agreement (see below) must be signed prior to receiving dust control.**
- The ratepayer will be responsible for the **full cost of the application that is non-refundable.**
- Sites treated may become rough or may develop potholes so if a road reaches a state where the condition of the driving surface poses a danger to the traveling public, the RM will grade the road which may render the dust control ineffective.
- **The location of where the dust suppressant is to be applied (staking) will be done in consultation with the Division Councillor.** If the Councillor determines that the road requested is not in condition to sustain a dust control application, no dust control will be applied.
- **Application is anticipated to be completed mid-late May** (weather and contractor availability dependant).
- Dust control application will be applied for every site at **200 meters length (650ft) and width at 7.3m (24ft)** at an application rate of 2.00 litres/m<sup>2</sup> which would be **approximately 2920 litres**. RM cost for the Magnesium Chloride is **\$0.35/Litre**, your **estimated cost would be approximately \$1022.00** (taxes not included).  
*Example of calculation: [200m x 7.3m x 2.0 rate =2920 litres x \$.035 = \$1022.00]*
- It is important to note that although road widths may vary (road could be less than 24 feet wide) the **same application rate/length/width ratio is applied** and there may be overlap in the centre. Please ensure the 200m distance measurements are confirmed with your Division Councillor and any special requests must be in writing below which may require pre-approval. *Your invoice will reflect actual litres applied to your site.*

**FORMS MUST BE RECEIVED BY THE RM OFFICE NO LATER THAN MAY 1<sup>ST</sup>**

### DUST CONTROL INDEMNITY AGREEMENT

I/we, \_\_\_\_\_, have read the above regarding dust control application for rural residences and hereby request that the RM of Francis, coordinate the application of dust control.

I/we agree to pay to the RM of Francis **100% of the cost of the dust control product and application**. The RM of Francis reserves the right to grade through the area of application as required to maintain a safe road surface which may render the application ineffective. **Failure to pay will result in the charges being applied to our tax account.**
